

# Bio-Code Longevity Formulas

*As we support your efforts pursuing perfect health, we are continually researching and developing products and services of excellent quality. Bio-code Longevity Formulas are a result of our commitment to you.*

## It's An Electro-Magnetic Universe

All life forms share a common ground in that they are immersed in the electro-magnetic field of the earth. Each life form has its own electro-magnetic field, which when sufficiently distorted, will ultimately result in disease of the organism. Symptoms, diseases, body chemistry patterns...they each have their own electro-magnetic pattern, frequency, or as we like to call it, their Bio-Code. Everything vibrates. This vibration may also be called a "frequency", much like a radio station that has a particular frequency. If you tune to it, the electronics vibrate to that frequency and the vibration is converted to sound by the speakers. This sound wave vibrates the surrounding air which eventually reaches your ears and your eardrum begins to resonate at the same frequency. The result is that you hear sound that may originate many thousands of miles away. You are "connected" to the source.

## The Bio-Code

We don't question this vibration principle when it comes to the radio or TV, but we don't apply the same common sense to everyday living, especially as it relates to our health. We call this vibration the "Bio-Code." We believe that there are combinations of herbs, flowers and homeopathic remedies that generate Bio-Codes to offset just about anything that is wrong with our life. Think of it as a "force field" of reciprocal electro-magnetic energy that supports our cells in their innate quest for healing and complete immunity. When the proper Bio-Code (sometimes a combination of Bio-Codes) is present in our lifestyle, amazing things happen.

## Enter the Matrix

The deeper science looks into the subatomic level all it finds is electric charges. Those electric charges make up an electric matrix (electro-magnetic pattern). An electro-magnetic matrix determines the unique shape of each object. No two snowflakes are the same? It is because every snowflake has a unique electro-magnetic matrix. It's the same with everything in the universe. Your body is a unique electro-magnetic matrix.

## **Your Electro-Magnetic Body**

All electro-magnetic activity begins at the cellular level. Each cell in your body has a voltage, just as your car battery does. When healthy your voltage is high, when sick your voltage is low. If the voltage in your cells is low, your entire body suffers. If you aren't functioning properly at the cellular level, there is no way your body can function properly. Low voltage reduces communication among your cells. Your cells communicate with each other via bio- electric transmission. When a particular area of your body is diseased, electric communication among your cells in that area of your body is decreased or non-existent. What causes this lack of cellular communication? Toxins are the culprit. Toxins that enter your body on a daily basis.

## **Bio-Code Nutrition**

The universe is electro-magnetic. Your body is electro-magnetic. It follows that your food is also electro-magnetic. All foods have a unique electro-magnetic matrix, just as you are a unique electro-magnetic matrix. When our Creator designed the human body it was designed to understand specific nutritional information; more precisely, specific electro-magnetic information. How do you know what is electro-magnetically correct for your body? Natural, organic foods are more likely to be correct for your body than are man-made foods and chemicals. It is also electrically incorrect for your body if man has altered something designed by our Creator, such as using chemical fertilizer and pesticides. Those chemicals (toxins) are absorbed into your food. When you eat the food you take those toxins into your body. When you drink water that is chemically treated you take toxins into your body. When you breathe air you take in toxins. Twenty-four hours a day, every day of the year, you are poisoning your body with toxins. The only way to remove your toxins is through correct electro-magnetic nutritional supplementation.

## **Nutritional Supplementation**

You may be taking nutritional supplements and have been for some time. Nutritional supplements are no different from your food, water, and air. They, too, can be electro-magnetically incorrect. If they are not electro-magnetically correct, they may be toxic to your body. Yes, nutritional supplements can be toxic to your body! If you are still searching for a cure, perhaps this is your problem. Experience the difference that Bio-Code Formulas can make, experience vitality and vigor you never thought possible!

## **Bio-Code Formulas**

Each Bio-Code formula has been calculated and formulated by Dr. Gary A. Martin, the originator of bio-code nutrition. Dr. Martin designed his formulas after discovering bio-code frequencies through his work with the Biological Immunity Analysis (BIA). The BIA is a soil analysis that has been adapted for human body chemistry. It is a combination of nutrition and physics. Other formulators look at the human body as being biochemical so they approach nutrition through chemistry. Dr. Martin knows your body is bio-electro-magnetic, so he approaches nutrition through physics. No other formulator of nutritional products understands this process, much less how to devise a bio-code supplement based on this process. That's why Dr. Martin's unique Bio-Code formulas are the world's most dynamic, powerful and effective nutritional supplements.
