

DIS-EASE

Two Aspects - One Cause

Disease: 1. Lack of ease; uneasiness; trouble; vexation; disquiet. 2. An alteration in the state of the body or of some of its organs, interrupting or disturbing the performance of the vital functions, and causing or threatening pain and weakness; malady; illness; sickness; disorder; applied figuratively to the mind, to the moral character and habits.

For any dis-ease, we believe there is a *physical* (body) aspect as well as a *metaphysical* (mind & soul) aspect. Wellness is expressed as balance between these two aspects. Dis-ease is expressed when this balance is interrupted.

The balance between these aspects of our being is maintained by [energy](#). We are composed of energy fields, electromagnetic in nature and function. These electromagnetic energy fields carry specific frequency and form specific patterns. A loss of energy results in changes to the frequency and form of these patterns affecting the function and structure of our being.

A loss of energy, is a change in frequency and form, is a change in function and structure resulting in various symptoms (dis-ease). These symptoms manifest on every level of our being. Affecting our thoughts (Mind), emotional reactions ([Soul](#)), and physical well-being (Body).

Wellness in body, mind, and soul, can only be experienced if the cause of energy loss is removed and balance is restored.

We are committed to providing you with the best resources and information necessary to live a long and healthy life. Begin living a life free of degenerative disease, free of chronic pain, and free of prescription drugs. Outstanding mental function, emotional health, physical stamina and optimism can be yours.
