## *Testimonials*

“I had severe arthritis in my back causing problems walking erect; after using the ME for 30 days I saw a great change in my energy and ability to walk. It is a wonderment! Thank You!”

Bellingham, WA

“I burned my arm while using the oven. It was a pretty bad burn. I use the ME 30 minutes twice a day. It healed so swiftly from the inside out, I did not have the ordinary scabbing that usually takes place from such a burn. It is amazing to me.”

Phoenix, AZ

“I am 76 going on 25; the ME has restored my youthful vigor. It is phenomenal!”

Miami, FL

“What a wonderful Miracle Machine! I don't know what I would do without it. We know in our hearts that every molecule within our being is touched by the hand of a healing Angel every time we use the ME”.

Hot Springs, AR

“I am 83 years old with various symptoms that doctors have been unable to alleviate. My kidneys were failing and I suffered from extreme Edema from my ankles to my knees; my liver was not functioning properly causing many digestive disorders. My bladder and prostate were also stressed causing frequent urination and discomfort. I was falling apart. Using the ME all symptoms have disappeared; I feel 40 years younger! God Bless You helping so many people!”

West Palm Beach, FL

“I have been using the ME for almost 3 months. My skin feels smoother, my eyes seem to be gaining clarity of vision and I have been coming out of my depression. Have you ever heard of such a thing? Thank you so very much!”

Fuita, CO

## History

George Lakhovsky, a Russian émigré, developed a device in the 1920's to radiate multiple electro-magnetic frequencies (harmonics) with the intent and purpose of "rejuvenation". The benefits of producing a broad range of harmonics at a high level causes each cell to resonate according to its own original (youthful) structure eliciting an overall rejuvenation effect.

Energy systems and cell structures become blocked or impeded by various factors such as poor eating habits, emotional stress, toxins and radiation. All these factors create destructive changes to the form and function of the cells, affecting tissue, organ, body systems and ultimately the entire being.

By applying these harmonizing fields to living cells, tissues and organs, imbalances, blockades and adverse relationships disappear and the mutual co-operation in the body is corrected. This in turn leads to the disappearance of sickness, afflictions and ailments.

## Research Studies

Mainstream research supports the idea that we are electrical beings using a bio-chemical body to exist in an electro-chemical environment. All living cells (people, animals, plants, bacteria, etc...) possess attributes which normally are associated with electronic circuits. These cellular attributes include: resistance, capacitance, and inductance. These 3 electrical properties, when properly configured, will cause the recurrent generation or oscillation of high frequency sine waves when sustained by a small steady supply of outside energy of the right frequency. This effect is known as resonance.

A normal healthy cell will resonate at an electrical potential of 70-90 millivolts (mV), an aged cell 50 mV, and a cancer or ill cell is reduced to 15mV. A cell in electrical difficulty affects numerous cellular functions. A device such as the Molecular Enhancer (ME) provides a high potential to the cells equalizing and resetting the body to it's natural resonance allowing healing to occur at a faster pace without stressing the cells.

Additionally, this influx of energy restores cell integrity by reorienting it's molecular structure allowing for easier potential movement. Basically, it bolsters the field of each cell so they support each other more easily.

## Healing Frequencies

Frequencies generate precise and complex waveforms that have specific functions. The ME resonates a broad range of frequencies which have been identified as beneficial for various conditions.

Some experimental evidence suggests exposure to various frequencies can aid nerve and bone regeneration, repair blood vessels and peripheral circulation, induce soft tissue healing and stimulate regression of tumors.

Any health modality should include a healthy diet, proper hydration and sound nutritional support. The inclusion of nutritive supplements, homeopathic remedies or medicinal herbs will greatly enhance the harmonizing and healing benefits and effects.
